PROJECT

- **Online Shopping for Electronic Product** **HTML|CSS| MYSQL**
 - Implemented robust user authentication and authorization. Designed and implemented a user-friendly product catalog with search and filtering options. Developed shopping cart functionality, including product addition, removal, and quantity updates
- **E-Commerce** **HTML|CSS| JAVA SCRIPT**
 - Modern UI with Dynamic Elements: The website features a clean and visually appealing design with a modern layout. It uses CSS for styling and animations, along with JavaScript for interactive elements like buttons, hover effects, and navigation.
 - Product Display & Features: The website effectively highlights products using high-quality images and pricing details.
- **Portfolio** **HTML|CSS| JAVA SCRIPT**
 - Developed a fully responsive personal portfolio website using HTML, CSS, and JavaScript.
 - Showcased my projects, technical skills, and contact information in a clean and professional layout.
 - Integrated Font Awesome icons, a working contact form, and smooth navigation between sections.
 - Hosted the website on [GitHub].
